

Final Year Project Presentation Open Day

2-5pm Monday 21st March

Venue: Laboratory 1, 2, 3, 5, 6, and 7

The Final Year Project Open Day is held once a year to give the final year students the opportunity to showcase their final year project. Each student is allocated a place to demonstrate their software/hardware and to discuss their work through a poster they have prepared.

The Open Day is attended by fellow students, members of the campus community, as well as invited external contacts. Throughout the afternoon a set of judges assess the projects and agree three project students to go forward to a presentation competition held in the following term. The winner is awarded the "Final Year Project Presentation Prize". A booklet containing all the information concerning the day will be provided nearer the time via the following link:

<http://www.essex.ac.uk/csee/departement/news/FYPPresentation.aspx>

and will be available in printed form on the day.

What you need to do

1. Prepare your abstract and get it checked by your supervisor.
2. Submit your abstract, using the template on the CE301 course repository page, to the OCS by 11.59.59 on Wednesday 9th March:
3. Prepare your poster using the template on the CE301 course repository page. **Your supervisor must check your poster.**
4. Submit your poster (.ppt) to the OCS by 11.59.59 on Wednesday 9th March after your supervisor has checked it. Please note that .ppt is not the default save option in Office 2007. You will need to select save as "PowerPoint 97-2003 Presentation"
5. You will be assigned a poster board and computer (if requested) by Beverley Colley (bev@essex.ac.uk) in one of the Labs. If you have other resource requirements for your demonstration (specific computer, power supply, scope, etc) then please discuss them with Beverley Colley before 14th March.
6. The posters will be placed on the poster boards for you by the technicians.
7. Judges for the project presentation prize will be present on the day but will not identify themselves. Three project students will be chosen to go forward to a Presentation Day held after the final examinations. The three students will give a short talk and the judges will decide the rank order.
